# Maternity Timelines

(Session fee still applies)

## *Don't miss a moment*

Our maternity timelines are so incredibly special. We document your journey from the tiniest of bumps right through until your precious baby is being held in your arms. It's so easy to forget what a remarkable thing our bodies do whilst we are pregnant and our timelines serve as the most perfect reminder on just how special pregnancy is.

Timelines can be started anytime from 12 weeks (ideally I like to start between 15- 17 weeks) and you attend approximately 7 sessions. You will receive:

3 high resolution digital images from each session

High resolution copy of your completed storyboard

# Cake Smash

(Session fee still applies)

*The perfect way to celebrate!*

Oh what a fun (and somewhat scary) time that first year can be. But you have made it and now it's time to celebrate. Cake Smashes are our speciality and we know all the tricks for a great smash. We know just how serious this smashing business can be for a 1 year old. Our session includes:

Session held in studio (you don't have to worry about the mess)

20 high and low resolution digital images

Completed storyboard showing all the fun had at the session (digital) - Choose from two different styles

Gorgeous slideshow that is perfect to display at your little one's party

\*I can recommend a fantastic cake supplier who will make your cake to your order and deliver to my studio on the morning of the session.

# Children's Storyboard

(Session fee still applies)

*Is it time to update your little one's photos?*

Our children's storyboard sessions are such a cute way to document your little one's ever changing personality. Perfect for a birthday keepsake or simply time to update your wall art.

Storyboard sessions are great for all ages.

Receive a copy of each image used in the storyboard (high & low resolution digital image)

High resolution copy of your completed storyboard

CHLOE {NOUN}: beautiful, outstanding, witty, clever, hungry, energetic, chatterbox, cuddly, adorable, giggly, hilarious, independent, and she is ours x

# Birthday Sessions

(Session fee applies)

## Perfect for any age

Our Birthday sessions were created and designed by One Moment One Time Photography. They are designed for children of any age and are the perfect add on if you did a cake smash the previous year. We capture the little details. This session lets your child play, dance, sing and just enjoy being young. Bring along balloons, it's your chance to dress them up in something spectacular (I love over the top!) and let them have fun.

You get to provide the quirky details that are unique to your child so that you never forget the little things - it's the smallest details that have the most meaning. You will receive:

10 High resolution digital images  
Completed high resolution storyboard
